

Table of contents

Preface	9
Introduction	13
PART I	
Guideline for the recognition and treatment of ADHD in adults with substance use dependence: conclusions and recommendations	19
1. Diagnosis	20
2. Treatment	25
PART II	
General principles of treatment of ADHD in the presence of substance use disorders	29
1. Diagnostic phase	29
2. Adapting the treatment of substance disorders to ADHD symptoms	30
3. Overview of the modules	32
4. Clarification of the six therapeutic methods and frameworks	36
5. Practicing skills	44
6. Adaptations according to setting	44
PART III	
Modular treatment guide	47
<i>Module Psychoeducation</i>	48
1. Information regarding ADHD	48
2. Information regarding substance abuse	50
3. Accepting the diagnosis	51
4. Strengthening the motivation	52
5. Information about medication	53
6. Informing the partner and the family	53
<i>Module Planning and organization</i>	54
1. Cognitive behavioral therapy and skills training	54
2. Occupational and art therapy	60

<i>Module Improving sense of time</i>	62
1. Cognitive behavioral therapy and skills training	62
<i>Module Reducing distraction</i>	63
1. Skills training	63
2. Mindfulness	64
3. Computerized training programs to improve cognitive functioning	66
<i>Module Managing substance use</i>	67
1. Cognitive behavioral therapy and skills training	67
2. Computerized training programs	70
3. Music therapy	70
<i>Module Improving emotion regulation</i>	72
1. Cognitive behavioral therapy and skills training	72
2. Mindfulness	74
3. Music therapy	75
<i>Module Addressing negative thoughts</i>	80
1. Cognitive behavioral therapy	80
<i>Module Reducing impulsivity</i>	83
1. Physical exercise	83
2. Music therapy	85
3. Cognitive behavioral therapy	87
<i>Module Improving social skills</i>	88
1. Skills training	88
2. Music therapy	90
<i>Module Relapse prevention</i>	91
1. Skills training for self-management	91
2. Evaluation and relapse prevention for substance use	92
3. Evaluation and prevention of relapse in ADHD dysfunction	93
PART IV
